

Business/Non-Instructional Operations

Fire Inspections

The New London Board of Education recognizes its obligation to be in compliance with all fire codes.

Therefore, with the cooperation of, and in coordination with, the Fire Department of the City of New London, the Board desires that, at the least, yearly fire inspections of the schools take place.

With the cooperation of, and in coordination with, the Fire Department of the City of New London, other requests for inspection may be made under special circumstances.

The Board urges that inspections involve at least the following categories:

1. Compliance with structural and equipment fire code regulations
2. Safety procedures
3. Housekeeping

The Board desires that such inspections take place after the close of a school day when school is in session. The inspection team should consist of the Principal of the school, a school custodian designated by the Principal, the Fire Marshal, and the Director of Operations.

An inspection report shall be filed with the Principal, the Director of Operations, and the Public Works Department. The report shall include the status of conditions in the three categories listed above, recommendations for remediation, and commendations.
